Amlib DIY/SIP2 Patch Installation Guide

WELCOME

Welcome to the *Amlib DIY/SIP2 5.3.4 Client Patch* Installation Guide for the *Amlib DIY (Self-Service) Module*.

This is a patch release updating the DIY/SIP2 module. The complete installation time is estimated at less than one (1) hour to complete.

Please Note: This document has been prepared for all libraries that currently have **Amlib DIY Module Version 5.3** installed.

BEFORE YOU BEGIN THE INSTALLATION...

Read the Installation Notes First

Please carefully read the entire installation guide prior to commencing the actual *DIY/SIP2* release update.

If you have any questions please contact: submit a support request on TOPDesk. If you do not know you login please email support-amlib@oclc.org and we will send it to you.

Amlib Help Desk (TOPDesk): <https://servicedesk.oclc.org/tas/public/index.jsp>

Please Note: This installation process is for existing *Amlib* customers who have purchased the optional *DIY (Self-Service) Module*.

WARNING: Please make sure that the latest version of the *Amlib Client* is installed and operational on the Self Issues workstation BEFORE installing the *Amlib DIY (Self-Service) Module*.

Serial Numbers NOT Required for Installation of Amlib Modules

The *Amlib DIY/SIP2 Module 5.3.4 Client* patch DOES NOT require a serial number.

Frequently Asked Questions

Question: Do all DIY workstations need to be logged out?

- Yes. All DIY Workstations should be completely logged out from all *Amlib* modules (including DIY) whilst installing the new *Amlib* module releases UNTIL the entire upgrade processes are completed

Question: Can OCLC (UK) Limited install the upgrade for me?

- Yes. *OCLC (UK) Limited* can arrange for the onsite installation of this upgrade for a fee

Please Note: To assist with email support we highly recommend that the default installation folders suggested in the following notes be retained.

For example:

- *Amlib Client* software: C:\Amlib (or D:\Amlib, E:\Amlib)

SECTION 1: UPGRADE AMLIB CLIENT ON DIY WORKSTATION

The *Amlib Client* needs to be updated on the DIY Workstation, and connectivity to the database confirmed **PRIOR** to the installation of the *Amlib DIY Module*.

Step 1: Ensure You Amlib Client is running on Version 5.3.3

IMPORTANT: Please ensure that you have **full read/write** access to the **\Amlib** folder on your PC (for example: **C:\Amlib**) and that you are logged in with Administrative Privileges.

1. In Amlib navigate to **Main > Base > About Release**
2. Note the Version Number at the top of the Window- it must be 5.3.3.0
3. If you Version number is not 5.3.3.0 please follow upgrade Amlib using the guides and files on the content portal
4. If in doubt about this please contact Amlib support via TOPdesk as above

Step 2: Log All DIY Workstations out of Amlib Modules

- Ensure all workstations have been logged out of both the *Amlib* client and the *Amlib DIY Module*

Amlib DIY/SIP2 Patch Installation Guide

SECTION 2: UPGRADE AMLIB DIY (SELF-SERVICE) MODULE

The *Amlib DIY Module* is installed in the same folder as the *Amlib Client*, so it is important that the latest version of the *Amlib Client* be installed **BEFORE** proceeding.

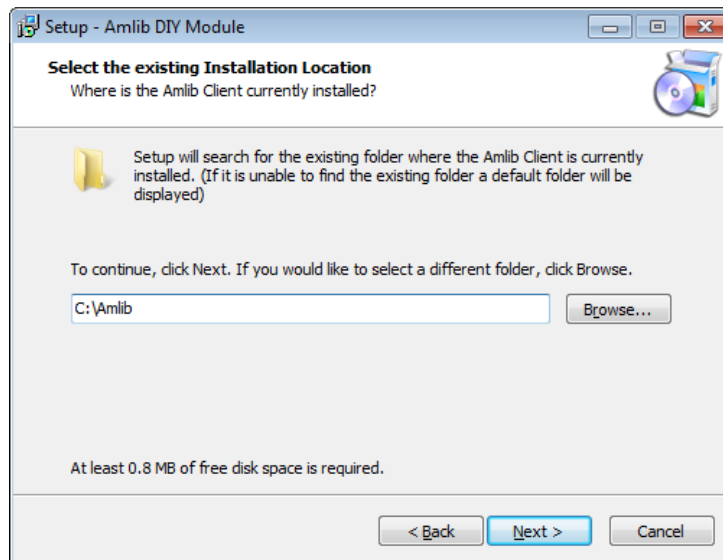

IMPORTANT: Please ensure that you have **full read/write** access to the **\Amlib** folder on your *DIY* workstation (for example: **C:\Amlib**) and that you are logged in with Administrative Privileges.

1. The *Amlib DIY 5.3.4 Module Patch* installer is available on the OCLC Website, under Updates and Patches>DIY:
<https://www.oclc.org/support/services/amlib/downloads-software-updates/version5-3/updates-and-patches.en.html>
(contact *Amlib* support if you require a login to this website)
2. Download the **DIY534Patch.exe** and save it on your *DIY* workstation
3. Double-click the **DIY534Patch.exe** to launch the installation Wizard – the Setup – Amlib DIY Module screen will open displaying the **Welcome** message:

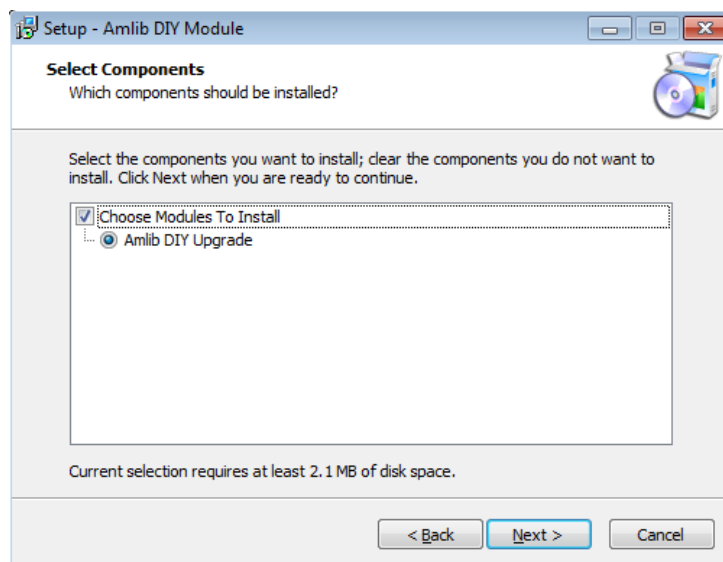

4. Click the **Next** button – the Installation Location screen will display:

Amlib DIY/SIP2 Patch Installation Guide

5. Select the folder where the *Amlib Client* is installed (as in the previous section) – a Default location will automatically display – for example: **C:\Amlib**
6. Click the **Next** button – the Select Components window will display:

7. Choose which components should be installed:
 - a. Modules To Install:
 - **Amlib DIY Upgrade** – installs the *Amlib DIY* program files into the existing *Amlib Client* folder
8. Select options and click the **Next** button
9. The Ready to Install screen will display with a summary of the installation tasks to be performed:

Amlib DIY/SIP2 Patch Installation Guide

10. Click the **Install** button – the Installing window will display:

11. When complete click the **Finish** button

12. The setup Wizard will close

Installation of the *Amlib DIY 5.3.4 Module Patch* is now complete.

SECTION 3: UPGRADE ALL DIY WORKSTATIONS

Ensure that all DIY Workstations are upgraded using the above instructions.
