I am getting unexpected duplicate labels when I print from Connexion client

Last updated: Thu, 10 Mar 2022 16:18:36 GMT

Symptom

• More than one label is printed for titles unexpectedly when printing labels from Connexion client

Applies to

• Connexion Client 2.63

Resolution

1. Bring up the record creating duplicates in Connexion client.
2. Click F10 to open the Label printing settings.
3. Correct the Copies of Each setting in the upper right corner of the window.
