"Records are being read from port device name Bib and item records will be created"

export error

Last updated: Thu, 28 Apr 2022 18:05:38 GMT

Symptom

- Exporting gives the host message "Records are being read from port device name. Bib and item records will be created"

Applies to

- Connexion Client

Resolution

This message is appearing because your computer has a slow connection to the ILS you are exporting to. To revert the message to the standard one:

1. Go to Tools > Options > Export
2. Set Timeout to 90
3. Set Retries to 5
4. Set Delay to 20.
