When we receive a request on UnityUK, has that request gone out to other possible suppliers as well, or just us?

Last updated: Fri, 01 Mar 2019 15:02:33 GMT

Applies to
- UnityUK

Answer
When a request is generated, depending on the requester's preference settings, responders are placed in a 'rota'. Responders are then contacted in turn and given 10 working days to respond to the request before the request moves on to the next responder in the queue.
