I am running the NCIP Cleint Addon for Aleph and I need to know from where the IP address that is being used

**Symptom**

- You are using the ILLiad IDS NCIP Client Addon and you want to know if the IP address being used is for the ILLiad Client or the Web Server

**Applies to**

- ILLiad

**Resolution**

Because this is a Client Addon, it resides on the local machine and the IP address is from the local machine.
