Why can't I see the E-Resources reports in WorldShare Analytics?

Last updated: Mon, 20 May 2019 18:07:03 GMT

Symptom
• You're unable to see the Analytics tab or any of the E-Resources reports in WorldShare.

Applies to
• WorldShare Collection Manager
• WMS Analytics
• WMS Admin

Resolution
The E-resources reports under WorldShare > Analytics > Reports are only available to WMS libraries. If you don't have a WMS subscription, you won't be able to get to those reports. If you do have a WMS subscription, look in your WMS Admin account and make sure that you have the proper Reports and Report Designer roles assigned for that report.
