Why do I receive an HTTP 404 error when trying to use the Web Harvester?

Last updated: Wed, 22 May 2019 18:57:37 GMT

Applies to

• Connexion client

Answer

If you try to associate web content with a bibliographic record using Tools > Harvest Web Content, you will receive an HTTP 404 error because the Web Harvester service is no longer available in Connexion client. As a result, all Web Harvester rights have been removed from cataloging authorizations.
