In ILLiad, how do I set up a routing rule so that Rapid Requests do not go to Awaiting Copyright Clearance?

Last updated: Thu, 17 Oct 2019 20:24:54 GMT

Symptom

- You want to set up a routing rule so that your Rapid requests go out through Rapid rather than going to Awaiting Copyright Clearance

Applies to

- ILLiad

Resolution

Information on setting up a routing rule is found in the Initial Configuration: Creating Custom Queues and Routing Rules for RAPID Requests documentation.
