Does WorldShare authorization require using only lower case letters in a user account email address?

Last updated: Thu, 05 Dec 2019 13:57:57 GMT

Applies to

- WorldShare

Answer

No, it does not matter if you use capitalization or not when entering an email address into a WorldShare user account. Between capitalizing letters, or using all lowercase letters for an email address; There is no effect on sign in, or on sending a password reset email to the email account.
