Can the ILLiad WebCirculation be set up so it can check items in that are not at the status of "Checked out to Customer?"

Symptom

- You want to know if you can modify WebCirculation so that you can check-in items that are not at the status of "Checked out to Customer?"

Applies to

- ILLiad

Resolution

No, you cannot edit WebCirculation so that you can check-in items that are not at the status of "Checked out to Customer." You can use the ILLiad Client if you need to check-in an item that is not Checked out to Customer Transaction Status.
