Why am I receiving a 'Lending Charges' contains invalid data for request error in my Purchase Request?

Last updated: Fri, 03 Apr 2020 16:41:08 GMT

Symptom
• 'Lending Charges' contains invalid data for request

Applies to
• WorldShare ILL
• Tipasa

Resolution
This is due to the data present in the Price field of the Purchase Request. You will only need the dollar amount in the 00.00 style. You do not need to add a currency symbol.

Additional information
Purchase Request workflows are available for WorldShare ILL and Tipasa.
