How do we Manage the ILLiad Workflow for our patrons during a temporary closure?

Symptom

• You want to limit what your patrons can do in the ILLiad Services

Applies to

• ILLiad

Resolution

Here are some steps you can take to limit what patrons can do in ILLiad:

1. Please see the Managing ILLiad Workflow During Covid-19 documentation.
2. You could also comment out your include_menu.html web page so patrons can see a message you have or if you want to limit only to articles, you comment out everything else.
3. Go here to see a list of temporary closure procedures for more of OCLC's products.
