Can I get an overview of all libraries in a Resource Sharing Group?

Last updated: Fri, 10 Apr 2020 10:31:57 GMT

Applies to

- WorldShare ILL
- Tipasa

Answer

To create an overview of all the libraries that are in a specific Resource Sharing Group, you look up the Group Symbol:

Navigate to [https://illpolicies.oclc.org](https://illpolicies.oclc.org)

Log in using your Authorization Code

On the left side of the page, under **Search by:** select "Group Symbol".

Type the Group Symbol you are looking for, for example BCOV, in the Search area and click **Search** on the bottom of the menu.

The Policies Directory will now show you a list of all the libraries in the group.

Additional information

If you wish to create a Custom Holdings Group based on all the symbols in the selected Resource Sharing Group, click on **Display Symbols** that is shown in the top-right corner of the list. This will show a pop-up with all the OCLC Symbols of all the libraries in the selection. You can now copy-paste these to your Custom Holdings Group field in the Service Configuration.
