Do I need to set up separate directories for the Odyssey Send and Receive folders when I am on an ILLiad Shared Server?

Last updated: Tue, 28 Jul 2020 15:21:56 GMT

Applies to
- ILLiad

Answer
You do not have to have separate folders on a shared server for the ILLiad Odyssey send and receive folders. ILLiad tracks them by Transaction Number and your OdysseySystemID from the Customization Manager is also used to determine which site a request goes to.
