Find instructions for delivering documents for libraries using MyBib eL. Because the European copyright act does not allow libraries to deliver electronic copies directly to library users, German libraries can use MyBib eL to supply documents faster than having it sent via air mail.

For more information, see [Instructions for delivering documents through WorldShare Interlibrary Loan](https://help.oclc.org/Resource_Sharing/Tipasa/Document_suppliers/Use_MyBib_el_to_deliver_documents).
