Can the GUI text window in the Website Config Tool Landing pages tab be used to add HTML?

Last updated: Tue, 16 Feb 2021 21:43:53 GMT

Symptom

- You’d like to use HTML code in your landing pages, but don’t know if that is possible.

Applies to

- CONTENTdm

Resolution

Yes, you may enter HTML tags into the Collection-level settings > Page Types > Landing Pages tab GUI text editor by clicking the HTML button on the far right side of the list of buttons.
