How do I control the order that the Access Online links appear on an e-resource record?

Last updated: Tue, 07 Dec 2021 21:55:02 GMT

Applies to

- WorldCat Discovery
- WorldCat Collection Manager

Answer

You can change the order of priority of providers so that the providers you wish your users to see content from appears first.

To do so:

1. In WMS navigate to Metadata > Collection Manager > Institution Settings.
2. Open the WorldCat Discovery accordion and click on the Display Order tab.
3. Drag the providers or click the arrow buttons to reorder them how you wish them to appear.
   - By default the providers will be in alphabetical order
