When completing the Request Templates spreadsheets what does 'Show if data' mean?

Last updated: Fri, 19 Nov 2021 18:41:12 GMT

Applies to
- Relais ILL

Answer
If for this field under the column Hidden you indicate Yes and under the Show if data column you indicate Yes, this means that ONLY if there is a corresponding value in an incoming OpenURL or from a patron or library record, the field will display on the request form. Otherwise this field will not display on the request form.
