No IP address needed or configured to access the Connexion client program

Last updated: Tue, 08 Mar 2022 15:20:33 GMT

Symptom

- Members ask if they need to configure Connexion client for IP address changes if they had an IP change at their library.

Applies to

- Connexion client 2.63, 3.x

Resolution

No IPs are needed to access Connexion client

Additional information

If they had a change to their ILS IP or URL, they would need to change their Gateway export destination settings.
