Self Hosted sites and the version to update is greyed out when running Start ILLiad Server Updater

Last updated: Fri, 06 May 2022 13:46:21 GMT

Symptom

- Version to update is greyed out when running Start ILLiad Server Updater

Applies to

- ILLiad

Resolution

Short introduction or instructions to follow these steps:

1. Go to the illiad/setup folder and look for the autoupdaterupdates folder.
2. It should have a 9.x.0 folder, and inside that folder there should be a 9.x ILLiadUpdate.exe.
3. Copy 9.x ILLiadUpdate.exe. to the illiad/admin folder and run it to get the 9.x updates
