Introduction

This release of My Account provides an enhancement for libraries with WorldCat Discovery to help you offer an improved experience for your library users:

- Expand and collapse search details for permanently saved searches

This enhancement is the direct result of your feedback.

Recommended actions

For this release, we recommend that you review the following checklists and complete the relevant tasks so that you can adjust your policies and workflows and train your staff. These checklists identify updates that we have determined as significant for most institutions. We encourage you to review all of the items in the release notes to determine whether there are other items that might require additional action or follow up by your institution.

Administrative actions

These items require immediate action or decisions.

<table>
<thead>
<tr>
<th>ACTION</th>

Include Request ID with problem reports

When reporting an issue with My Account or WorldCat Discovery, it's very helpful to include the Request ID. It can be found at the bottom of the screen on which the issue occurred. Including this information allows us to directly trace what happened on the request we are troubleshooting.
New enhancement

Expand and collapse search details for permanently saved searches

*For libraries with WorldCat Discovery*

When viewing saved searches, users now have the option to view each search in collapsed or expanded format, allowing them to access full details for their search. This experience has been redesigned to mirror the search history tab to better support a user’s journey within their account.

Previously, users saw all details for saved searches and could not collapse the view.

**Current view**
With this release, users can choose to expand or collapse details for specific saved searches.

**New collapsed view**

**New expanded view**
For more information, see Search activity.

Bug fixes and known issues

For a full list of current and recently fixed issues, see Known issues for My Account.
